# HOEFLON C1 PICK AND CARRY

The C1 mini-crane is small yet powerful! Its compact size allows you to transport this mini-crane on a trailer or in a van. The crane fits in a lift, which makes transport to an upper floor or the roof as easy as can be.

Thanks to the crawler tracks, the crane can easily drive over a rough surface yet causes no damage to floors that are already finished. The crane makes use of smart software that guarantees workplace safety.

The C1 is the ultimate solution for lifting glass panels and other heavy construction materials to difficult-to-reach places at a project site.
